

# THE PRESENTER'S “OH SHIT” CARD Apple Keynote edition

**OH SHIT...**

**... No presenter display! Both screens are showing the slide!**

Mirroring is on. ⌘F1 or ⌘-fn-F1.

**... Menu-bar screen shows the slide, but there's no presenter display!**

Turn on presenter display in prefs.

**... The presenter display and the slide are on the wrong screens!**

Press X to exchange them.

**... I started on the wrong slide!**

Home (fn-←) goes to the first slide.

**... My notes exceed my notes view!**

D scrolls them down, U scrolls up.
